

THE LOGICAL NEXT STEP.

CROW-FOOT SPANNERS 540A HD.

STAHLWILLE CROW-FOOT spanners are the ideal solution when it comes to fastener tightening in hard-to-reach places. Simply attach them to standard or fine-tooth ratchets or their extensions and the thoughtfully engineered construction enables the full extent of the jaws to be applied, because in awkward spaces every millimetre counts. As you would expect, drop-forged and in renowned STAHLWILLE premium quality.

Heavy-duty crow-foot spanners 540a HD

- Ideal where access to the work space is restricted. The full extent of the jaws can be used.
- Simply attach to a ratchet, extension etc.
- Drop-forged. Enhanced with rounded finish with no sharp corners.
- For particularly high loadings, e.g. stainless steel screw fittings.
- Only available from STAHLWILLE: an exceptionally well appointed range of imperial tools.
