

Ø 57 mm

0,2 mm

Dial gauge: 5 µm

30 mm throat depth.
Highly stable frame with heat insulating handle.

≈ 2 N

Non-interchangeable measuring inserts. With device for retraction of inserts.

THICKNESS GAUGES

Designed for the direct measurement of thickness of all types of materials: plastics, glass, wood, felt, paper, rubber, etc.

Each gauge is equipped with a rotating dial for zero setting.

Model for Sheets
